In addition to the below topics, my [Webinar lectures](#) are also available for live (or virtual) presentations.

Gardening Simplified: Plants and Design Solutions for Time-Pressed and Maturing Gardeners. Change happens. Job demands, kids, hectic schedules, aging bodies, and changing interests have led to gardens that are not in balance with our lifestyle. This inspiring lecture provides easy-to-follow right-sizing strategies, recommended no-fuss plant material, and design tips for stunning year-round gardens that will be as close to 'autopilot' as you can get. The lecture is based on my book *The Right-Size Flower Garden*.

The Budget-Wise Gardener: Plant the Best for Less! Money-Saving Tips for Purchasing Plants Plus Cost-Saving Garden Designs. Discover a wealth of ideas for getting the best price and value for exceptional plants. The plant sources and strategies will surprise you! Also covered are striking design concepts for eye-popping, pollinator-friendly landscapes requiring less maintenance and water. Container gardening takes on a whole new spin with these cost-effective, creative ideas! This lecture is based on my newest book, *The Budget-Wise Gardener* - an essential guide to creating the garden of your dreams without breaking the bank.

Power Up Garden Beauty; Power Down Garden Maintenance. Get more bang for your buck, and less backbreaking maintenance, with these amazing perennials, flowering shrubs and annuals that provide much more color than commonly planted varieties. Plus, these underused beauties (many of which are natives or nativars) are pollinator friendly, and most require less water. Enjoy more time relaxing with family and friends as they admire your handiwork!

Heavenly Plants for Tough Spots and Hellstrips. Landscaping in challenging sites can be an exasperating exercise. Even experienced gardeners can have spots in their landscape where plants just don't flourish. This presentation features superhero plants that thrive in dry shade; hot, sandy locations; wet areas, on slopes; and in hellstrips between sidewalk and street curb. No matter where you plant them, in challenging locations OR great soil, they make landscapes beautiful both for gardeners and pollinators.

Gardening for Beauty and Wellness. This eye-opening presentation will introduce you to gorgeous, no-fuss plants (perennials, flowering shrubs and annuals) that provides month after month of stunning color, reduce stress, AND benefit pollinators. The presentation also includes organic maintenance tips.

Small Landscapes with BIG Attitudes! Do you have a small area to garden but want BIG results? Maybe it's the main entrance to your home or an entertainment area that needs jazzing up? This eye-opening presentation provides clever design and accessorizing tips for maximizing and extending color in smaller spaces. The lecture features remarkable, no-fuss perennials, flowering shrubs, evergreens and annuals that provide three seasons (or more) of beauty plus neat habits. Pollinator-friendly plants and sustainable practices are emphasized.

Reblooming Perennials and Flowering Shrubs. Gardeners dream of magnificent flower gardens that provide nonstop color, attract pollinators, and require MUCH less maintenance. One simple way to make this a reality is by incorporating reblooming perennials and flowering shrubs. These could be plants that bloom six or more weeks with no deadheading OR those that serve up a second round of flowers later in the season – and I'm not talking a measly display. Many of these dynamos are natives. Featured plants will be for sun to shade.

Save the Pollinators: Attractive Landscapes for Pollinators and Homeowners! What could be more heavenly than a beautiful low-maintenance garden filled with "moving art": birds, butterflies and other pollinators? Discover eye-catching perennials and flowering shrubs – mostly native - that benefit BOTH homeowners and pollinators. The focus will also be on sustainable care - creating landscapes that require less water, fertilizer and pesticides.

Inspired Garden Design Lessons from Magnificent Gardens. Stunning gardens will be our classroom for emphasizing striking design essentials that elevate gardens from ordinary to sublime, regardless of the hardiness zone or sunlight conditions. We will consider texture, movement, color, repetition, garden accessories, focal points, vertical elements and more.

Hydrangeas Demystified – Great Hydrangeas and Tips for Exceptional Flowering. Unravel the mystery for having honkin' Hydrangeas that will be the envy of the neighborhood. This vast genus of shrubs is divided into five groups. Knowing the differences and how to maximize the show from each will be discussed as well as top-performing cultivars. The talk includes how to care and prune these beauties.

Design Tips for Traffic-Stopping Curb Appeal! This eye-opening presentation will cover easy-to-implement design steps for enhancing your home's curb appeal. Included will be top-performing perennials, annuals, flowering shrubs, evergreens & ornamental trees for head-turning foundation beds.

Double Your Pleasure with Perennials Boasting Flashy Foliage AND Flowers. Discover how foliage can add incredible color to a garden without depending on flowers for a dramatic effect. And the bonus, if not the main attraction, is that foliage centered landscapes require little maintenance! This presentation features standout perennials for their wide array of foliage textures, forms, and colors. Gorgeous flowers are icing on the cake!

The Perennial Plant Collector's Corner. This talk is for plantaholics seeking unusual, fun, outrageous, or underused perennials that will have heads turning and onlookers mumbling "What is that?" As an avid collector, I've walked many miles in my muck boots to find some unique plants that transform ho-hum gardens into eye-popping, extraordinary ones.

Three Seasons of Outrageous Color from Perennials. Discover spectacular perennials for sun and shade that brighten your landscape spring through fall. Many newer varieties will be featured. As one perennial stops blooming, it 'passes the baton' to the next 'winner'. Helpful garden care tips and shortcuts to maximize color and reduce maintenance will also be covered.

Jaw-Dropping Flowering Shrubs – the New No-Fuss Glamour Plants! Do you want to add drama, winter interest and colorful flowers to your gardens while reducing maintenance time?

Then include some spectacular flowering shrubs, many which also contribute dazzling foliage and are pollinator friendly. Lots of NEW cultivars will be featured.

The Art of Shade Gardening - Seeing Your Way Out of the Dark. Shade gardening need not be frustrating. This talk will introduce enchanting perennials, flowering shrubs and annuals for spring, summer and fall color. The presentation also includes design tips and how to care for these beautiful gardens.

Beauty and the Beast: Outrageous Foliage Plants! Discover how foliage can add incredible color and drama to a garden. Flowers are icing on the cake! And the bonus - foliage centered landscapes require little maintenance. This presentation features showy perennials, shrubs and annuals prized for their wide array of foliage textures, forms, and colors. It also includes suggested pairings and design tips for creating breathtaking gardens.
